Section 4 **Occupancy**

- Owner-occupied primary residences
- Second homes

Section 5 **Transactions**

- Purchase
- Rate/Term Refinance
- Cash-Out Refinance

Purchase:

- Proceeds from the transaction are used to finance the acquisition of the subject property.
- LTV/CLTV is based upon the lesser of the sales price or appraised value.
- Assignment of contract or finder's fees reflected on the purchase contract are not eligible to be included in the sales contract price or associated with the LTV/CLTV calculation.

Rate & Term Refinance: Proceeds from the transaction are used to:

- Pay off an existing first mortgage loan and any subordinate loan used to acquire the property.
- Pay off any subordinate loan not used in the acquisition of the subject property, provided one of the following apply:
 - Closed-end loan, at least 12 months of seasoning has occurred.
 - HELOC, at least 12 months of seasoning has occurred, and total draws over the past 12 months are less than \$2,000.
- Buy out a co-owner pursuant to an agreement.
- Pay off an installment land contract executed more than 12 months from the loan application date.

Other Rate/Term Considerations:

- Refinance of a previous loan that provided cash out and is seasoned less than 12 months as measured from the previous note date to the new note date, will be considered a cash out refinance.
- Cash back not to exceed the lesser of 2% of the new loan amount or \$5,000.
- The transaction must be treated as cash-out when the subject property is encumbered by one of the following:
 - Blanket/Cross-Collateralized loan, or
 - Loan that allows for Paid in Kind (PIK) interest. A copy of the note must be provided to determine required payment terms. Notes allowing interest to accumulate during the term of the loan are eligible.
- Properties listed for sale in the past six (6) months are ineligible. If the property has been listed for sale in the previous 12 months, the LTV will be based on the lesser of the lowest list price or appraised value.
- LTV/CLTV:
 - If the subject property was acquired greater than six (6) months from the new note date, the appraised value will be used to determine LTV/CLTV.
 - If the property was acquired less than or equal to six (6) months from the new note date, the lesser of the current appraisal value or previous purchase price plus documented improvements (if any) will be used to determine LTV/CLTV. The purchase settlement statement and any invoices for materials/labor will be required.
 - If the property has been listed for sale in the previous 12 months, the LTV will be based on the lesser of the lowest list price or appraised value.
- Title must be in the borrower's name at time of application and on the closing date except that title may be in an LLC at time of application if the borrower(s) is a majority owner (i.e. more than 50%), and the property must be deeded to the borrower individually at closing. Loans may not close with title held in the name of the LLC. The other owners of the LLC must acknowledge the transfer of ownership to our borrower(s).

Cash-Out Refinance: A refinance that does not meet the definition of a rate/term transaction is considered cash-out.

- A letter explaining the use of loan proceeds is required for all transactions.
- A mortgage secured by a property currently owned free and clear is considered cash-out.
- The payoff of delinquent real estate taxes (60 days or more past due) is considered cash-out.
- Loans not eligible for cash-out:
 - Properties listed for sale in the past six (6) months. If the property has been listed for sale in the previous 12 months, the LTV will be based on the lesser of the lowest list price or appraised value.
 - There has been a prior cash-out within the past six (6) months.
 - There is a closed-end second seasoned less than six (6) months or there is a HELOC with any draws in the last six (6) months.
 - Land Contract/Contract for Deed.
- Cash-Out seasoning is defined as the time difference between the note date of the new loan and the property acquisition date.
 - Borrower ownership seasoning of six (6) months is required for a transaction to be eligible for cash-out.
 - Cash-out seasoning of six (6) months or less is only allowed when it is documented that the borrower acquired the property through an inheritance, or was legally awarded the property through divorce, separation, or dissolution of a domestic partnership.
 - If the property was owned prior to closing by a limited liability corporation (LLC) that is majority-owned or controlled by the borrower(s), the time it was held by the LLC may be counted towards meeting the borrower's six-month ownership requirement.
 - If the property was owned prior to closing by an inter vivos revocable trust, the time held by the trust may be counted towards meeting the borrower's six-month ownership requirement if the borrower is the primary beneficiary of the trust.
- Title must be in the borrower's name at time of application and on the closing date except that title may be in an LLC at time of application if the borrower(s) is a majority owner (i.e. more than 50%), and the property must be deeded to the borrower individually at closing. Loans may not close with title held in the name of the LLC. The other owners of the LLC must acknowledge the transfer of ownership to our borrower(s).
- LTV/CLTV:
 - If the subject property was acquired greater than six (6) months from the new note date, the appraised value will be used to determine LTV/CLTV.
 - If the property was acquired less than or equal to six (6) months from the new note date, the lesser of the current appraisal value or previous purchase price plus documented improvements (if any) will be used to determine LTV/CLTV. The purchase settlement statement and any invoices for materials/labor will be required.
 - If the property has been listed for sale in the previous 12 months, the LTV will be based on the lesser of the lowest list price or appraised value.

Delayed Purchase Refinance: Delayed purchase financing is eligible when a property was purchased by a borrower for cash within 180 days of the new loan note date.

- The original purchase transaction was an arms-length transaction.
- The source of funds for the purchase transaction are documented (such as bank statements, personal loan documents, or a HELOC on another property).
- The maximum LTV/CLTV ratio for the transaction is based upon the lower of the current appraised value or the property's purchase price plus documented improvements.
- The preliminary title search or report must confirm that there are no existing liens on the subject property
- The transaction is considered cash-out, cash-out Loan/LTV/CLTV limits and price adjustments apply.
- Cash back to the borrower in excess of documented funds used to purchase the property is not allowed.

Conversion of Construction-to-Permanent Financing:

The conversion of construction-to-permanent financing involves the granting of a long-term mortgage to a Borrower for the purpose of replacing interim construction financing that the Borrower has obtained to fund the construction of a new residence. The Borrower must hold title to the lot, which may have been previously acquired or purchased as part of the transaction.

- For lots owned ≥ 12 months from the new note date for subject transaction, LTV, CLTV, HCLTV is based on the current appraised value.
- For lots owned < 12 months from the new note date for subject transaction, LTV, CLTV, HCLTV is based on the lesser of the current appraised value of the property or the total acquisition costs (sum of documented construction costs and documented purchase price of lot).

Texas Section 50(a)(6) transactions:

- 1-unit primary residence only
- 30-year fixed rate only
- Maximum LTV/CLTV of 80%
- Points and Fees are limited to 2%
- Regardless if the new loan is a rate/term or cash-out refinance, any loan classified under Texas law as a Texas 50(a)(6), must follow the cash-out eligibility matrix and be locked as a cash-out refinance.
- Refer to Plaza's **Texas Home Equity Section 50(a)(6) guidelines** for additional information.

New York Consolidation, Extension and Modification Agreement (CEMA): Allowed for refinances only.

Section 6 Property Flips

Properties, including new construction, acquired within 12 months after the date of the seller's acquisition where the contract price exceeds the seller's acquisition price by 10% or more are considered flips. The timeframe is measured from the seller's note date to the date of the borrower's purchase agreement.

Property Flips:

- Non-Arm's Length or Identity of Interest transactions are not permitted
- There can be no pattern of previous flipping as evidenced by multiple transfers in the last 12 months
- No double escrows or assignment of sales contract
- Seller of record must own the property at the time of the purchase contract
- The property must have been marketed openly and fairly, through a multiple listing service, auction, for sale by owner offering (documented) or developer marketing
- Value increases must be supported including documented improvements if applicable, and an additional valuation product may be required.

Second Appraisal Requirement: A second appraisal is required if the transaction is a Higher Priced Mortgage Loan (HPML) and the value has increased $> 10\%$ in the past 90 days or $> 20\%$ in the past 180 days. HPML second appraisal requirements are listed below:

- A second appraisal is required if $> 10\%$ increase in sales price if seller acquired the property in the past 90 days prior to the borrower's purchase agreement date, or
- A second appraisal is required if $> 20\%$ increase in sales price if seller acquired the property in the past 91-180 days prior to the borrower's purchase agreement date.
- The second appraisal must be obtained prior to the note date
- The second appraisal must be provided to the borrower (standard appraisal delivery requirements apply)
- The borrower may not be charged for the second appraisal

Section 7 Non-Arm's Length Transactions

Non-Arm's Length Transaction

- Non-arm's length transactions are purchase transactions in which there is a relationship or business affiliation between the seller and the buyer of the property. Examples of non-arm's length transactions include family sales, property in an estate, employer/employee sales, and flip transactions.
- When the property seller is a corporation, partnership, or any other business entity, it must be ensured that the borrower is not an owner of the business entity selling the property.
- A non-arm's length transaction is not intended to bail out a family member who has had difficulties making their mortgage payment. A thorough review of the title report in these cases is required, as well as the payment history pattern (verification of the Seller's mortgage (VOM)).

Eligible Non-Arm's Length Transactions:

- Renter(s) purchasing from landlord.
 - 12 months of cancelled checks to prove timely payments are required.
 - A verification of rent (VOR) is not acceptable.
- Purchase between family members.
 - Gift of Equity requires a gift letter, and the equity gift credit is to be shown on the CD.
 - Must provide a 12-month mortgage history on the existing mortgage securing the subject property, confirming the Family Sale is not a foreclosure bailout.

Non-Arm's Length and Identity of Interest Transaction Restrictions:

- Borrower to provide verification of the earnest money deposit.
- Maximum LTV/CLTV of 80%.
- For-Sale-By-Owner (FSBO) transactions must be arm's-length. Renters purchasing from landlords are allowed; however, there may be no other non-arm's length factors.
- Employer to employee sales or transfers are not allowed (e.g., newly constructed properties)

Section 12 Credit

Credit Report:

- A tri-merged credit report is required.
- Unless otherwise addressed below, Fannie Mae underwriting guidelines must be followed for evaluating a borrower's credit history.
- Credit reports with bureaus identified as frozen are required to be unfrozen and a current credit report with all bureaus unfrozen is required.

Credit Scores:

- Refer to the **Program Matrix in Section 3** to determine minimum credit score requirements by scenario.
- Standard Documentation and Alt Documentation except Asset Utilization: The qualifying score of the primary borrower is used to qualify.
 - The borrower with the higher monthly income is considered the primary borrower.
 - When both borrowers jointly own the business, the lowest qualifying score of all applicants is used to qualify.
 - The minimum qualifying score of any co-borrowers (borrowers other than the primary borrower) is 620.
- Asset Utilization: The lowest qualifying score of all applicants is used to qualify.
- The qualifying score is the lower of 2 or middle of 3 scores for each borrower.

Trade Lines:

If the primary borrower has three (3) credit scores, the minimum tradeline requirement is waived. When the primary borrower has less than three credit scores, each borrower must meet the minimum tradeline requirement. Exception - if the co-borrower is the spouse of the borrower only one spouse is required to meet the minimum tradeline requirement. Tradeline requirement:

- All mortgage accounts must be current at application and remain paid as agreed through closing.

 - Borrowers who live rent free or without a complete 12-month primary residence payment history may be eligible (see section below).

 - If the subject transaction is secured by a non-institutional lender, the mortgage payoff statement should be reviewed to determine that no late fees or delinquent interest is included in the payoff amount. A borrower's combined mortgage/rental history is used for program or grade eligibility.
 - For properties owned free and clear, a property profile report or similar document showing no lien against the property should be provided in the credit file.
- Balloon Notes with an expired maturity date exceeding 30 days require an extension to avoid being counted as delinquent (e.g., no extension and maturity date > 30 days at closing is 1x30 late, > 60 days is 1x60, etc.).

- Collections and charge-offs that have expired under the state statute of limitations on debts may be excluded from the DTI calculation. Evidence of expiration must be documented.
- Exception to requirement to pay off: Charge-offs and collections not excluded by the above bullet points must be paid or may stay open if using one or a combination of both of the following:
 - Payments for open charge-offs or collections are included in the DTI (subject to program DTI restrictions). If a payment amount is not known, 5% of the balance may be used as the payment.
 - Reserves are sufficient to cover the balance of the charge-offs or collections and meet reserve requirements.

- If the unresolved disputed account balance is \$250 or less, the payment can be included in the total debt calculation and the account can remain in dispute
- The total aggregate balance of accounts in dispute remaining unresolved can't exceed \$2,000

Inquiries: Recent inquiries within 90 days of the credit report date must be explained by the borrower. A detailed explanation letter that specifically addresses both the purpose and outcome of each inquiry is required. - Stable monthly income is the borrower's verified gross monthly income which can be reasonably expected to continue for at least the next three (3) years. The source and the amount of the income must be stable.
- A two-year employment history is required for the income to be considered stable and used for qualifying.
- When the borrower has less than a two-year history of receiving income, in order to consider the income by exception, a written analysis to justify the stability of the income used to qualify the borrower must be provided.
- While the sources of income may vary, the borrower should have a consistent level of income despite changes in the sources of income.
- When analyzing borrower earnings, year-over-year earnings trends must be incorporated into the borrower's income calculation.
- Year-to-date (YTD) income amounts must be compared to prior years' earnings using the borrower's W-2 forms, signed federal income tax returns, or bank statements. The earnings trends are addressed as follows:
 - Stable or increasing: The income amounts should be averaged.
 - Declining but stable: If the 24-month earnings trend shows a decline in borrower income, but the most recent 12-month earning has stabilized and there is no reason to believe the borrower's employment will change, the most recent 12-month average of income should be used.
 - Declining: If the trend is declining, the income is not eligible

Rental Income and Alt Doc:

Rental income may be included in loan qualification for Alt Doc income types. For rental income to be considered with other Alt Doc income types, the following documentation must be provided:

Long Term Rental:

- A copy of the lease(s) for the rental property.
- Two (2) months of proof of the receipt of rental income. The deposits must be to a separate bank account. Any deposits in the business bank statements used in the business income analysis are not eligible.
- If the deposits cannot be validated in a separate account, the rental income cannot be used and the full PITIA of the rental unit must be included in the qualifying DTI ratio.
- A 25% vacancy factor must be applied to the gross rent used for qualifying. Multiply the gross rent by 75% and subtract the PITIA to arrive at the rental income/loss used for qualifying.

Short Term Rental:

- Property leased on a short-term basis utilizing an on-line service such as Airbnb gross monthly rents can be determined by using a 12-month look back period to account for seasonality.
- Rents for the look back period must be documented with either 12-monthly statements or an annual statement provided by the on-line service. In the event the borrower owns a single rental property, bank statements with deposits clearly identified/sourced as rental income can be substituted. If two or more rental properties owned, statements from an online service must be provided to associate rents received with the specific property.
- A screen shot of the online listing must show the property is actively marketed as a short-term rental.
- A 25% vacancy factor must be applied to the gross rent used for qualifying. Multiply the gross rent by 75% and subtract the PITIA to arrive at the rental income/loss used for qualifying.
- Note: AirDNA is an ineligible method for documenting rental income.

Application of Rental Income:

- The monthly qualifying rental income (as defined above) must be added to the borrower's total monthly income. (The income is not netted against the PITIA of the property)
- The full amount of the mortgage payment (PITIA) must be included in the borrower's total monthly obligations when calculating the debt-to-income ratio.

Bank Statement Income Documentation Options:

- 12 or 24 month personal bank statements
- 12 or 24 month business bank statements

Eligible Borrowers/Employment: Bank Statement Income documentation is available for self-employed borrowers only.

Ineligible Sources of Income for Bank Statement Documentation:

- Primary source of income from residential 1-4 unit real estate investment (rental income) is not eligible for bank statement documentation.
- Income earned buying and selling property is not eligible for bank statement documentation. This includes flipping houses and developers buying land, developing it, and selling the improved property.
- Passive or portfolio income sources are not eligible (distributions from limited partnerships, day trading, etc.) for bank statement documentation.
- Funds/Deposits in an IOLTA (Trust) are ineligible sources of income for bank statement documentation.
- Not-For-Profit entities are ineligible sources of income.

Combining Documentation Types: Income documented using bank statements may be combined with other income sources that are documented as Standard Doc but not associated with self-employment.

- When wage income is combined with bank statement income documentation, a tax return is not required for the full income documentation, as this would invalidate the bank statements. The 4506-C form is still required; however, Box 8 should be checked to obtain a transcript of W-2 earnings only
- When bank statement documentation is combined with standard documentation the loan must meet the bank statement eligibility matrices and will be priced as bank statement documentation

Rental Income and Bank Statement Income Documentation: Refer to **Rental Income and Alt Doc**

Income Worksheet: All bank statement documented loans must include Plaza's **Bank Statement Worksheet**

Guidelines in Section 13 Income & Employment – General apply

Tax Returns/4506-C/Tax Transcripts:

- Tax returns, 4506-C and transcripts are not required for bank statement documentation.
- If tax returns and/or transcripts are provided, the loan will be ineligible for the bank statement program.

Personal Bank Statements:

- Most recent 24 or 12 months of PERSONAL bank statements.
- Most recent 2 months of BUSINESS bank statements.
 - They must evidence activity to support business operations.
 - They must reflect transfers to the personal account.
- Verify that the borrower owns 20% of the business by providing one of the following:
 - CPA letter, Tax Preparer letter, operating agreement, or equivalent, reflecting the borrower's ownership percentage.
- The borrower's business being used to source the income must be in existence for a minimum of 2 years as evidenced by one of the following:
 - CPA or tax preparer letter, or
 - Business License, or
 - Business bank statement from 24 or more months prior to note date reflecting activity, or
 - Other reasonable evidence of business activity.
- If the borrower does not have a separate business bank account and cannot provide 2 months of business bank statements, the personal bank statements will be reviewed using business bank statement guidelines. In this situation the personal bank statements are considered co-mingled personal and business accounts and business bank statement analysis applies:
 - An expense factor must be applied using one of the business bank statement analysis methods described below.
 - Verify the borrower is 100% owner of the business (borrower and spouse with combined 100% ownership is eligible).
- If the borrower has a personal account and a business account and co-mingles business deposits into both accounts, only deposits into the business account may be used.

Personal Bank Statement Income Calculation:

- Only transfers or deposits from the business account(s) are eligible deposits, except
 - ATM deposits may be included if a consistent pattern of such deposits is present.
- Any inconsistent or large deposits not justified must be backed out of the calculation.
- Net income is based upon the total eligible deposits from the 24 or 12 months of statements divided by the number of statements
- Qualifying income is the lower of:
 - for the 24-month statement option, the net income from the analysis using all 24 months of bank statements, or
 - for both the 24 or 12 month statement option, the net income based upon the most recent 12 months of bank statements.
- The most recent bank statement must be consistent with the qualifying income.

Business Bank Statements:

- Verify that the borrower is at least 25% owner of the business by providing one of the following:
 - CPA letter, tax preparer letter, operating agreement, or equivalent 3rd party documentation reflecting the borrower's ownership percentage.
- The business used to source the income must be in existence for a minimum of two years as evidenced by:
 - CPA or tax preparer letter, or
 - Business License, or
 - Business bank statement from 24 or more months prior to note date reflecting activity, or
 - Other reasonable evidence of business activity.
- Income from the analysis of the bank statements must be multiplied by the borrower's ownership percentage to determine the borrower's net income.

Business Bank Statement Analysis:

- Deposits should be reviewed for consistency.
- Deposits from alternative payment processing applications (i.e., Square, Venmo) are eligible.
- Inconsistent or large deposits should be sourced or excluded from the analysis. The definition of a large deposit is any deposit exceeding 50% of the average monthly sales of the business.
- Changes in deposit patterns must be explained.
- Income documented separately or not from the business must be backed out of deposits.

Two options exist to analyze business accounts, fixed 50% expense ratio or expense ratio based on a business expense statement letter.

Fixed Expense Ratio 50%:

- 24 or 12 months of business bank statements covering the most recent time-period.
- Net Income is determined by the total deposits from the bank statements, minus any inconsistent deposits, multiplied by 50% expense ratio, multiplied by ownership percentage, divided by the number of bank statements reviewed.
- Qualifying income is the lower of:
 - for the 24-month statement option, the net income from the analysis using all 24 months of bank statements, or
 - for both the 24 or 12 month statement option, the net income based upon the most recent 12 months of bank statements.
- The deposits from the most recent bank statement must be consistent with the qualifying income.
- If the borrower's business operates with an expense ratio below 50%, and the borrower wishes to qualify at a lower expense ratio than 50%, refer to the Business Expense Letter qualifying method below.
- Plaza reserves the right, at the reviewer's discretion, to require additional documentation if the expense ratio appears unreasonable for any business entity.

Business Expense Statement Letter:

- If the borrower's business operates with an expense ratio below 50%, and the borrower wishes to qualify at a lower expense ratio than 50%, the borrower may use the Business Expense Letter qualifying method described in this section.
- 24 or 12 months of business bank statements covering the most recent time-period; and
- An expense statement (**example letter**) specifying business expenses (minimum expense ratio is 10%) as a percent of the gross annual sales/revenue, prepared and signed by either a CPA/accountant, IRS Enrolled Agent or tax preparer; and
- Credit file must contain documentation showing evidence of the preparer's business.
- Net Income is determined by the total deposits from the bank statements, minus any inconsistent deposits, less total expenses, multiplied by ownership percentage, divided by the number of bank statements reviewed. Total expenses are calculated by multiplying the total deposits by the expense factor provided by a CPA/accountant, IRS Enrolled Agent, or tax preparer (subject to a minimum total expense percentage of 10%).
- Qualifying income is the lower of:
 - for the 24-month statement option, the net income from the analysis using all 24 months of bank statements, or
 - for both the 24 or 12 month statement option, the net income based upon the most recent 12 months of bank statements.
- The most recent bank statement must be consistent with the qualifying income.
- Plaza reserves the right, at the reviewer's discretion, to require additional documentation if the expense ratio appears unreasonable for any business entity.

Non-Sufficient Funds:

Non-sufficient funds (NSF) reflected on the bank statement must be considered. Overdraft protection fees associated with a pre-arranged link to a savings account or line of credit must also be considered unless one of the following conditions exist:

- Occurrences included in the analysis are subject to the following tolerances (An occurrence is defined as one or more checks returned the same day):
 - If there are one (1) or more occurrences in the most recent three-month time period, up to three (3) occurrences are allowed in the most recent 12-month time period.
 - If there are zero (0) occurrences in the most recent three-month time period, up to five (5) are allowed in the most recent 12-month time period.
- Overdraft protection from a depository account: Occurrences may be excluded if statements for the linked account confirm that:
 - (a) the linked account balance at the time of the transfer exceeded the amount of the overdraft transfer,
 - (b) the linked account's balance did not report as zero or negative at any point during the statement period of the transfer, and
 - (c) the linked account did not itself receive overdraft protection proceeds during the statement period of the transfer.
- Overdraft protection from a line of credit: Occurrences may be excluded if statements for the linked account confirm that (a) the line's credit limit was not exceeded during the statement period of the transfer, and (b) a payment amount which equals or exceeds the sum of all overdraft protection occurrences analyzed in the statement period is made within 30 days after the statement close date.
- Exception requests for tolerance deviations must include (a) a letter of explanation from the borrower outlining the reason for the occurrences and an explanation of how and when the issue leading to the occurrences was rectified, and (b) additional compensating factors outlined by the underwriter supporting the viability of income.
- The underwriter must consider the financial strength of a self-employed borrower's business

Section 17 Qualifying Ratios

- Refer to the **Program Matrix** in Section 3 for qualifying ratios.
- Interest-Only: Qualify on the PITIA based on the fully amortizing loan term after the IO period ends.
- All programs qualify at the greater of the fully indexed rate or the note rate.
- For other properties owned, documentation to confirm the amount and/or presence or absence of liability for P&I, taxes, insurance, HOA dues, lease payments or other property-related expenses must be provided. All properties owned by the borrower must be fully documented in this regard on the Schedule of Real Estate Owned (REO) section of the Form 1003 loan application. These obligations must be verified using reasonably reliable records such as taxing authority or local government records, homeowner's association billing statements, or information obtained from a valid and legally executed contract.

Residual Income: All loans must meet the residual income requirements below.

- Residual income calculation must be calculated and displayed on the 1008.
- Residual income equals Gross Monthly Qualifying Income minus total monthly debt.
- DTI ≤ 50%: \$2,500 Residual Income required + \$250 for first dependent + \$125 for each additional dependent.
- DTI > 50%: \$3,500 Residual Income required + \$250 for first dependent + \$125 for each additional dependent.

Revolving Charges/Lines of Credit:

- The minimum required payment, as stated on the credit report or current account statement, should be used to calculate the debt-to-income ratio.
- If no payment is stated on the credit report, the greater of \$10 or 5% of the current balance should be included in the DTI ratio calculation.
- Revolving accounts can be paid off prior to or at closing in order to exclude the payment from the debt ratio. Supporting documentation, such as a credit supplement or direct verification from the creditor, must be obtained as evidence the debt has been paid in full.

Installment Debt:

- Payments on installments must be included in the borrower's debt-to-income (DTI) ratio.
- Payments can be excluded if there are 10 or fewer monthly payments remaining to pay the debt in full. If the payment is substantial and exceeds 5% of the borrower's qualifying income, the overall transaction should be reviewed to ensure the remaining payments will not impact the borrower's ability to handle the new mortgage payment.
- Installment debt paid in full or prior to closing can be excluded from the debt-to-income ratio. Supporting documentation, such as a credit supplement or direct verification from the creditor, must be obtained as evidence the debt has been paid in full.
- Deferred installment debts must be included as part of the borrower's recurring monthly debt obligations. For deferred installment debts other than student loans, if the borrower's credit report does not indicate the monthly amount that will be payable at the end of the deferment period, copies of the borrower's payment letters or forbearance agreements must be obtained so that a monthly payment amount can be determined and used in calculating the borrower's total monthly obligations.

30-day Charge Accounts: For open 30-day charge accounts that do not reflect a monthly payment on the credit report, or 30-day accounts that reflect a monthly payment that is identical to the account balance:

- 5% of the outstanding balance will be considered to be the required monthly payment, or
- The payment may be excluded from the debt ratio calculation if the borrowers have sufficient liquid assets, after required funds to close and reserves, to cover the full balance of the 30-day account.

Departure Residence Pending Sale: If the borrower's current principal residence is pending sale but the transaction will not close prior to the subject transaction, the departing residence PITIA must be included in borrower's debt ratio except when all of the following documentation is provided:

- An executed sales contract for the departing residence
- Verification that all contingencies have been removed

Departure Residence Converting to Rental Property: If the borrower is converting their current primary residence to a rental property, the departing residence PITIA must be included in borrower's debt ratio except when the following documentation is provided. When the following is provided, the departure PITIA may be offset using 75% of the lower of actual or market rent:

- Market Rent Analysis, Single Family Comparable Rent Schedule (Fannie Mae® Form 1007)
- Copy of a current lease
- Evidence of proof of receipt of damage deposit and first month's rent

Student Loans:

- For all student loans, whether deferred, in forbearance, or in repayment, a monthly payment must be included in qualifying.
- If a monthly student loan payment is provided on the credit report, that amount may be used for qualifying purposes.
- If the credit report does not reflect the correct monthly payment, the monthly payment that is on the student loan documentation (the most recent student loan statement) may be used to qualify the borrower.
- If the credit report does not provide a monthly payment for the student loan, or if the credit report shows \$0 as the monthly payment, a qualifying monthly payment must be determined. For deferred loans or loans in forbearance, the following may be used:
 - a payment equal to 1% of the outstanding balance (even if this amount is lower than the actual fully amortizing payment), or
 - a fully amortizing payment using the documented loan repayment terms

Auto Lease Payments: Payment must be included in qualifying DTI regardless of the number of remaining payments.

Alimony, Child Support and Maintenance Payments: Obligations must be documented according to Fannie Mae guidelines and payments must be included as a liability.

Contingent Liability/Cosigned Obligations:

Contingent liability applies and the debt must be included in the underwriting analysis if an individual applying for a mortgage is a cosigner/co-obligor on any other obligation. However, if the borrower provides documentation to evidence they are not the primary obligor, and the primary obligor has been making regular payments during the previous 12 months and does not have a history of delinquent payments on the loan during that time, the payment does not have to be included in the borrower's monthly obligations

Collections & Charge-offs, Judgments, Garnishments, Liens & Disputed Accounts: Refer to these items in **Section 12 Credit**.

Business Debt:

- If the debt is reflected on the borrower's personal credit report, the borrower is personally liable for the debt and it must be included in the debt-to-income ratio unless additional documentation is provided.
- Debts paid by the borrower's business can be excluded from the DTI ratio with any of the following supporting documentation:
 - Most recent six (6) months of cancelled checks drawn against the business account, or
 - Tax returns reflecting the business expense deduction, or
 - Business bank account statement showing assets remaining after funds to close and reserve requirements are deducted, with a balance greater than or equal to the balance of the debt
- If the debt is less than six (6) months old, the payment must be included in the DTI ratio regardless if the above documentation is provided.

Assets: Assets used for down payment, closing costs, debt payoff, and reserves must be documented. The asset documentation requirement for all transactions is a single account statement covering a one (1) month period and dated within 90-days of the loan note date.

Documentation: The following may be used as asset documentation:

- Account statements (e.g., checking, savings, share, or brokerage accounts). Statements must include the following:
 - Name of financial institution
 - Reflect borrower as the account holder (Funds held jointly with another individual are considered 100% of the borrower's funds)
 - Account number
 - Statement date
 - Time period covered by the statement
- Assets held in a Trust:
 - Obtain written documentation (e.g., bank statements) of the value of the trust account from either the trust manager or the trustee, and
 - Document the borrower has access to the funds
- Accounts verified using a third-party vendor participating in the Fannie Mae Day 1 Certainty® process
- Verification of Deposit completed by the verifying financial institution using Fannie Mae® Form 1006.

Large Deposits: Large deposits on any of the above asset documentation must be sourced.

- Large deposits are defined as any single deposit that represents more than 50% of the borrower's qualifying monthly income.
- Deposits under 50% of the borrower's qualifying income are subject to source at the underwriter's discretion.
- Deposits otherwise sourced as part of the borrower's income analysis do not require further sourcing.

Eligible Assets:

- Stocks/bonds/mutual funds: 100% of the account(s) value may be considered for assets
- Vested retirement account (IRA, 401k, Keogh, 403b): 70% of the vested balance may be considered for assets
- Business accounts may be considered for borrower's assets subject to the following:
 - The amount of business assets that may be utilized is limited to the borrower's ownership percentage in the business.
- Cash Value of Life Insurance: 100% of the cash surrender value less any loans may be considered for assets
- Borrowed funds secured by an asset are an acceptable source of funds for down payment, closing costs, and reserves because borrowed funds secured by an asset represent a return of equity.
 - Monthly payments on loans secured by non-financial assets must be included in the debt-to-income calculation; however,
 - Monthly payments on loans secured by financial assets are not considered long-term debt and may be excluded from the debt-to-income calculation provided the following:
 - Obtain a copy of the applicable loan instrument that shows the borrower's financial asset as collateral for the loan.
 - If the borrower intends to use the same asset to satisfy down payment, closing cost, or reserve requirements, the value of the asset must be reduced by the proceeds from the secured loan and any related fees.
 - Payment on any debt secured by virtual currency is an exception to the above policy and must be included when calculating the debt-to-income ratio.
- Crypto Currency: Bitcoin and Ethereum are eligible sources of funds for the down payment, closing costs and reserves. Crypto is not an eligible liquid asset for asset utilization/depletion.

- Down payment and closing costs: currency must be liquidated and deposited into an established US bank account.
- Reserves: Loan file must include a statement meeting the requirements under account statements to document ownership of the crypto holdings. Current valuation, within 30-days of the loan Note date, can only be determined from the Coinbase exchange. 60% of the current valuation will be considered eligible funds.
- Foreign Assets: Assets held in foreign accounts or originating outside of the U.S. must be:
 - Transferred to a U.S. domiciled account in the borrower's name at least ten (10) days prior to closing unless funds are held in a foreign bank with U.S. branches insured by the FDIC.
 - Verified by the U.S. institution.
 - Translated to English and verified in U.S. Dollar equivalency at the current exchange rate via either <http://www.xe.com> or the Wall Street Journal conversion table.
 - All other asset requirements in this section apply.
- 1031 Exchange: Funds held by a 1031 administrator/agent are eligible for down payment and closing costs.

Gift Funds:

- Gift funds are allowed after the borrower contributes the following minimum requirement from their own funds:
 - Primary residence Standard Doc (12 or 24 month) or Bank Statement Doc (12 or 24 month) with LTV <= 80% may use 100% gift funds.
 - Primary residence and second home (all doc types except asset utilization): 5% down payment from borrower funds.
- A gift from a relative or domestic partner who has lived with the borrower for the past 12 months can be counted towards the borrower's minimum own funds requirement when the following is provided:
 - A certification from the donor stating that he or she has lived with the borrower for the past 12 months and will continue to do so in the new residence.
 - Documents that demonstrate a history of borrower and donor shared residency. The donor's address must be the same as the borrower's address. Examples include but are not limited to a copy of a driver's license, a bill, or a bank statement.
- Donor must be:
 - A relative, defined as the borrower's spouse, child, or other dependent, or by any other individual who is related to the borrower by blood, marriage, adoption, or legal guardianship, or a fiancé, fiancée, or domestic partner
 - The donor may not be, or have any affiliation with, the builder, the developer, the real estate agent, or any other interested party to the transaction.
 - For any gift provided by a non-US citizen, the donor must be screened against the OFAC Specially Designated Nationals (SDN) list
- Gift Letter must be provided. The gift letter must:
 - specify the dollar amount of the gift
 - specify the date the funds were transferred
 - include the donor's statement that no repayment is expected
 - indicate the donor's name, address, telephone number, and relationship to the borrower.
- Verification of Funds. Verification of sufficient funds to cover the gift are either in the donor's account or have been transferred to the borrower's account and reflected in the borrower's bank account. Acceptable documentation includes the following:
 - a copy of the donor's check and the borrower's deposit slip, or
 - a copy of the donor's withdrawal slip and the borrower's deposit slip, or
 - a copy of the donor's check to the closing agent, or
 - a settlement statement showing receipt of the donor's check
- When the funds are not transferred prior to settlement, documentation must show that the donor gave the closing agent the gift funds in the form of a certified check, a cashier's check, or other official check.

- Gift of Equity:
 - Primary Residence
 - Must be Full Doc
 - Must meet all other guidelines for Gift Funds
- Gift funds not allowed with Asset Utilization documentation.
- Gift funds are not allowed if borrower is a non-permanent resident alien.

Ineligible Assets:

- Funds contributed by a non-borrowing spouse unless documented as a gift
- Non-vested or restricted stock accounts
- Cash-on-hand
- Sweat equity
- Down payment assistance programs
- Unsecured loans or cash advances

Section 19 Reserves

Reserves must come from the borrower's eligible assets listed in the previous section. Additionally, net proceeds from a cash-out transaction may be used for reserves.

Reserve Requirement: (if more than one attribute exists, the greater reserve requirement applies)

- LTV/CLTV \leq 85%: 6-months of PITIA
- LTV/CLTV $>$ 85%: 12-months of PITIA
- Loan Amount $>$ \$1.5M: 9-months of PITIA
- Loan Amount $>$ \$2.5M: 12-months of PITIA

Other Reserves Considerations:

- Reserve requirements apply to the subject property loan only. Additional reserves are not required for additional financed properties.
- Cash-out may be used for reserves
- Reserves for a loan with an Interest Only feature are based upon the Interest Only payment amount
- Gift funds are not allowed for reserves
- Proceeds from a 1031 exchange are not allowed for reserves

Section 20 Interested Party Contributions

Interested party contributions include funds contributed by the property seller, builder, real estate agent/broker, mortgage lender, or their affiliates, or any other party with an interest in the real estate transaction. Interested party contributions may only be used for closing costs and prepaid expenses and may never be applied to any portion of the down payment or contributed to the borrower's financial reserve requirements.

- LTV > 75%: 6%
- LTV ≤ 75%: 9%

Seller Concessions:
